

Papers Published in the Proceeding of the Canadian Technical Asphalt
Association from 1956 to 2009

By Subject Matter

Asphalt and Mix Exchange
Asphalt Binders
Asphalt Binders, Modified
Asphalt Emulsions
Bituminous Mix Design
Contractors' Workshops
Development of Specifications
Miscellaneous
Pavement Construction
Pavement Evaluation
Pavement Recycling
Pavement Rehabilitation and Maintenance
Pavement Structural Design
Paving Aggregates, Soils and Stabilization
Rutting
Surface Treatment and Seal Coats
Testing and Predicting Pavement Behaviour

ASPHALT & MIX EXCHANGE

Asphalt & Mix Exchange

- “Report on 1978 Canadian Mix Exchange (presented at 1979 Contractors' Workshop)”, K.A. Millions 25 54-71 (1980).
- “Report on the 1980 Canadian Asphalt and Mix Exchange Programs”, V.P. Drul, T.A. Williams 26 36-59 (1981).
- “1983 Canadian Asphalt Mix Exchange”, G.J. Lee, P.J. Arseneault, F.A. Gervais 29 2-29 (1984).
- “1984 Canadian Asphalt Mix Exchange”, G.J. Lee, P.J. Arseneault, F.A. Gervais 30 20-41 (1985).
- “1986 Canadian Asphalt Mix Exchange”, F.A. Gervais, G.J. Lee, J.G. English 33 2-25 (1988).
- “Analyse et Interpretation des Résultats des Programmes d'Essais Interlaboratoires sur les Enrobes Bitumineux Organisés au Quebec entre 1978 et 1989”, D. Proteau, J.C. Moreux, 36 193-228 (1991).
- “1991 Canadian Asphalt Exchange Program - The Binder Materials”, J. Ferguson 37 1-13 (1992).
- “Programme d'Echange Canadien 1991-1992 sur les Enrobes Bitumineux”, M. Beaudoin, P. Langlois, D. Proteau 37 14-28 (1992).
- “1992 Canadian Asphalt Exchange Program - The Binder Materials”, B.W. Armstrong, J. Ferguson 38 1-13 (1993).
- “The Canadian Asphalt Mix Exchange Program 1992-1993 Summary”, R.D. Nixon 38 14-26 (1993).
- “The Canadian Asphalt Mix Exchange Program - 1993-1994 Summary”, R.D. Nixon 39 1-16 (1994).
- “The 1992 Canadian Asphalt Exchange Program and a Review of Some Test Results on the Binder Materials”, B.W. Armstrong, J. Ferguson 39 17-47 (1994).
- “The 1993 Canadian Asphalt Exchange Materials - The Binder Materials”, B.W. Armstrong, J. Ferguson, 39 48-60 (1994).
- “The 1994 Canadian Asphalt Exchange Program”, B.W. Armstrong, I. Vickaryous, 40 403-426 (1995).
- “The Canadian Asphalt Mix Exchange Program 1994-1995 Summary”, D.S. MacLeod 40 427-453 (1995).
- “The 1996 Canadian Asphalt Mix Exchange Program”, F. Antunes 41 376-415 (1996).
- “The Canadian Asphalt Exchange Program 1996 Summary”, F. Antunes 42 418-442 (1997).
- “The Canadian Asphalt Mix Exchange Program 1997 Summary”, F. Antunes 42 443-466 (1997).
- “The Canadian Asphalt Exchange Program 1997 Summary”, A. Qayyum 43 443-467 (1998).
- “The Canadian Asphalt Mix Exchange Program 1998 Summary”, A. Qayyum 43 468-491 (1998).

ASPHALT & MIX EXCHANGE

- “The Canadian Asphalt Exchange Program 1998 Summary”, Abdul Qayyum 44 435-458 (1999).
- “The Canadian Asphalt Mix Exchange Program 1999 Summary”, Abdul Qayyum 44 459-482 (1999).
- “The 1999 Canadian Asphalt Exchange Program”, Magdy Beshara 45 338-359 (2000).
- “The 2000 Canadian Asphalt Mix Exchange Program”, Magdy Beshara 45 360-381 (2000).
- “The 2000 Canadian Asphalt Exchange Program (CAEP) 2000 Summary”, Magdy Beshara 46 451-473 (2001).
- “The 2001 Canadian Asphalt Mix Exchange Program 2001 Summary”, Magdy Beshara 46 475-498 (2001).
- “The 2002 Canadian Asphalt Mix Exchange Program 2002 Summary”, Magdy Beshara 47 277-298 (2002).
- “The 2001 Canadian Asphalt Exchange Program (CAEP) 2001 Summary”, Magdy Beshara 47 299-320 (2002).
- “The 2002 Canadian Asphalt Exchange Program (CAEP) 2002 Summary”, Magdy Beshara 48 419-440 (2003).
- “The 2003 Canadian Asphalt Mix Exchange Program (CAMEP) 2003 Summary”, Magdy Beshara 48 441-462 (2003).
- “The 2003 Canadian Asphalt Exchange Program (CAEP) 2003 Summary”, Magdy Beshara 49 519-540 (2004).
- “The 2004 Canadian Asphalt Mix Exchange Program (CAMEP) 2004 Summary”, Magdy Beshara 49 541-562 (2004).
- “The 2004 Canadian Asphalt Exchange Program (CAEP) 2004 Summary”, Magdy Beshara 50 459-480 (2005).
- “The 2005 Canadian Asphalt Mix Exchange Program (CAMEP) 2005 Summary”, Magdy Beshara 50 481-502 (2005).
- “The 2005 Canadian Asphalt Exchange Program (CAEP) 2005 Summary”, Magdy Beshara 51 475-496 (2006).
- “The 2006 Canadian Asphalt Mix Exchange Program (CAMEP) 2006 Summary”, Magdy Beshara 51 497-517 (2006).
- “The 2006 Canadian Asphalt Exchange Program (CAEP) 2006 Summary”, Magdy Beshara 52 507-528 (2007).
- “The 2007 Canadian Asphalt Mix Exchange Program (CAMEP) 2007 Summary”, Magdy Beshara 52 529-550 (2007).

ASPHALT & MIX EXCHANGE

“The 2007 Canadian Asphalt Exchange Program (CAEP) 2007 Summary” Beshara, Magdy 53 433-454 (2008).

“The 2008 Canadian Asphalt Mix Exchange Program (CAMEP) 2008 Summary” Beshara, Magdy 53 455- (2008).

“The 2008 Canadian Asphalt Exchange Program (CAEP) 2008 Summary” Beshara, Magdy 54 493-514 (2009).

“The 2009 Canadian Asphalt Mix Exchange Program (CAMEP) 2009 Summary” Beshara, Magdy 54 515- (2009).

ASPHALT BINDERS

Asphalt Binders

“The Manufacture of Paving Asphalts”, H.R. Hawthorne 1 33-40 (1956).

“The Significance of Paving Asphalt Specifications and Their Effect on Pavement Quality”, R. Vokac 1 69-71 (1956).

“Powdered Asphalt & Flux Oil as a Composite Binder in Bituminous Road Construction”, C.M. Baskin 1 72-80 (1956).

“The Road to Better Asphalt”, A.W. Dumoulin, J.O. Izatt 3 67-86 (1958).

“Significance of Tests in Selecting Crude Oils for Asphalt Production”, E.T. Hignell 3 87-96 (1958).

“Significance of Tests on Paving Asphalts”, L.W. Corbett 3 97-108 (1958).

“Quality of Asphalt Cements as Reflected by Specifications”, W.B. Warden 3 109-126 (1958).

“Laboratory Evaluation of Bituminous Additives for Use in Mulch or Cold Mix Plant Applications”, S. Nargolwalla 3 195-228 (1958).

“Factors of Production and Refining Affecting Asphalt Quality”, C.W. Berger 4 115-122 (1959).

“Effects of Temperature on Asphalt Cements and Cut Back Asphalts”, G.L. Huot, Y. Verret, 5 41-52 (1960).

“Petroleum Crude Sources and the Production of Asphaltic Materials”, A.W. Dumoulin, D. Kerr, 5 119-142 (1960).

“Composition Studies on Asphalt”, R.A. Burgess, D. Kerr 6 29-38 (1961).

“Asphalt Cements from Canadian Light Crudes and Their Use in Pavement Construction”, N.W. McLeod 6 100-130 (1961).

“Viscosity Characteristics of Asphalt Cements Produced from Canadian Crude Oils”, H.R. Hawthorne 7 25-48 (1962).

“Low Temperature Properties of Asphalt”, R.K. Seaman 8 67-88 (1963).

“Weathering Characteristics of Coating Grade Asphalts”, P.M. Jones, E.V. Gibbons 8 89-102 (1963).

“Comments on the Proposal to Classify Paving Grades of Asphalt Cement by Viscosity at 140 Degrees F.”, N.W. McLeod 8 135-141 (1963).

“An Accelerated Weathering Study of Several Asphalt Cements Currently Being Used in Canada”, V.O. Juba 9 57-72 (1964).

“Research on Bituminous Paving Materials in the States”, J.M. Rice 9 145-156 (1964).

ASPHALT BINDERS

- “Force de Cohesion et d'Adhesion des Ciments Asphaltiques”, G. Frechette, E. Blouin 10 15-22 (1965).
- “A National Program of Research and Development for Highway Transportation as Related to Asphalts”, W.J. Halstead 11 5-18 (1966).
- “Paving Asphalts for Future Highways”, W.J. Kari 11 19-58 (1966).
- “Glass Transition, Temperature and Mechanical Properties of Asphalt”, J.J. Breen, J.E. Stephens 12 137-144 (1967).
- “Transverse Pavement Cracking Related to Hardness of the Asphalt Cement”, N.W. McLeod 13 5-96 (1968).
- “Stripping Characteristics of Paving Grade Asphalts Used in New Brunswick”, W.J. Dohaney 13 267-276 (1968).
- “Asphalt Hardening: Fact and Fallacy”, J.Y. Welborn 14 171-184 (1969).
- “The Effect of Temperature on the Mechanical Behaviour of some Canadian Asphalts as Shown by a Test Data Chart”, O. Kopvillem, W. Heukelom, 14 262-286 (1969).
- “Influence d'Antioxydants sur un Ciment Asphaltique 85-100”, R. Langlois, P. LaRochelle 15 39-100 (1970).
- “Viscosity Characteristics of Two Canadian Asphalts”, J.A. Lefebvre, W.D. Robertson 15 11-122 (1970).
- “The Sliding-Plate Rheometer”, J. Fenjin, R.C. Krooshof 15 123-157 (1970).
- “Use of the Stiffness Concept to Characterize Bituminous Materials”, K.O. Anderson, R.C.G. Haas 15 207-228 (1970).
- “Manitoba Experience with Soft Binders”, F.D. Young 15 285-312 (1970).
- “Selection of Asphalts for Asphalt Concrete Pavements Pros and Cons”, J.A. Epps, B.M. Gallaway 16 95-126 (1971).
- “A Microscopic Examination of the Effect of Oxidation on the Microstructure of Paving Asphalts”, D.P. Sontowski 17 5-28 (1972).
- “Age-Hardening of Saskatchewan Asphalt Cements”, R.W. Culley 17 29-54 (1972).
- “Low Temperature Properties of Western Canada Asphaltic Cements”, J. Hvozdanski, R.O. Darby, W.D. Wellwood 17 109-138 (1972).
- “Low Temperature Stiffness of Asphalt Binders - Measurements and Predictions”, J. Fenjin 18 31-58 (1973).
- “A Comparative Study of the Chemical Composition of Bitumens Manufactured in Quebec”, G.L. Huot, L.P. Blanchard 18 267-308 (1973).

ASPHALT BINDERS

- “Use of Air-Blown Asphalt Cements to Reduce Thermal Cracking”, M.F. Clark, R.W. Culley 19 5-21 (1974).
- “Use of Air-Blown Asphalt Cements to Reduce Thermal Cracking (Discussion)”, N.W. McLeod 19 22-22 (1974).
- “Use of Air-Blown Asphalt Cements to Reduce Thermal Cracking (Closure)”, M.F. Clark, R.W. Culley 19 23-24 (1974).
- “Asphalt Specifications for British Columbia Highways”, J.F. Meidinger, D.A. Kasianchuk 19 25-41 (1974).
- “Asphalt Specifications for British Columbia Highways (Discussion)”, N.W. McLeod 19 42-44 (1974).
- “The Case for Upgrading Asphalt Cements by Penetration at 77 Degrees F (25 Degrees C)”, N.W. McLeod 20 251-302 (1975).
- “Component Analysis of Bitumens”, L.P. Blanchard, H.H. Kiet, L.D. Luu, S.L. Malhotra 20 303-326 (1975).
- “Rheological Changes of Asphalt Cements in Service in Alberta”, K.O. Anderson, B.P. Shields 20 389-410 (1975).
- “A Laboratory and Field Evaluation of Air-Blown, Low-Viscosity Waxy Asphalts from Western Canada Crudes”, W.J. Gaw, R.A. Burgess, F.D. Young, H.J. Fromm 21 193-224 (1976).
- “Asphalts for Build-Up Roofing”, N.G. Bean 22 187-192 (1977).
- “Penetration Characteristics of Asphalt in a Recycled Mixture”, L.J. Zearley 24 362-367 (1979).
- “Effect of Oxidation on Chemical Composition and Physical Properties of some B.C. Asphalts”, D.P. Santowski, L. Mazuch 25 432-449 (1980).
- “Asphalt Supply/Demand in the 1980'S”, R.F. Roblin 26 98-105 (1981).
- “Cohesion: Critère d'Appréciation des Liants pour Enduits”, J. Marvillet 27 85-97 (1982).
- “Temperature Susceptibility Characterization of Asphalts”, W.D. Robertson 27 127-155 (1982).
- “Effect of Construction Practices on the Asphalt Properties in the Mix”, W.J. Kari 27 310-334 (1982).
- “Engineers Can Make Paving Asphalt Temperature Susceptibility Work For Or Against Them”, N.W. McLeod 28 1-38 (1983).
- “Relationships between Rheology of Air-Blown Asphalt & Thermal Cracking of Asphalt Concrete”, R.W. Culley 28 66-78 (1983).
- “Surface Penetration Test for Viscosity Measurement”, N.P. Khosla 28 79-94 (1983).

ASPHALT BINDERS

“Système d'Assurance de la Quality des Bitumes au Quebec”, B. Couillard, M.R. Robitaille, P. Zaikoff 28 122-138 (1983).

“Etude Comparative de Bitumes Provenant de Sources Diverses”, L.P. Blanchard, M.A. Maachar 28 260-281 (1983).

“Synergetic Effect on Stiffness and Viscosity on the Temperature Susceptibility of Paving Asphalts”, H.F. Chung 29 234-249 (1984).

“Discussion on the Paper” Synergetic Effect of Stiffness and Viscosity on the Temperature Susceptibility of Paving Asphalts” N.W. McLeod 30 2-11 (1985)

“Utilization of Processed Residues for the Production of Road Asphalt Cements”, M.A. Poirier, H. Sawatzky 30 42-59 (1985).

“Using the Freezing Index for the Optimum Selection of Paving Asphalts with Different Temperature Susceptibilities for any Pavement Site”, N.W. McLeod 30 282-327 (1985).

“Preliminary Evaluation of Heavy Crudes from Lloydminster Area as a Base for Asphalt Production”, L. Zanzotto, A.J. Faber, D. Foley 30 354-379 (1985).

“Physical Properties of Asphalt Cements used in Quebec from 1979 to 1986”, J. Boudreault 31 302-319 (1986).

“Asphalt Chemical Components and Physical Properties are Related Mathematically”, T.E. Mullins, M.D. Shorland 33 374-385 (1988).

“Low Temperature Viscosity and Temperature Susceptibility of Asphalt Cements”, N.W. Garrick 36 103-114 (1991).

“Influence of Temperature on the Stripping of Asphalt Concrete Mixtures”, E.H.H. Mohamed, A.O. Abd El Halim, G. Kennepohl 36 115-134 (1991).

“A Demonstration Project to Evaluate Foamed Asphalt Technology - Lethbridge, Alberta”, C.B. Dawley, B.L. Hogeweide, A.G. Johnston 38 145-167 (1993).

“Effectiveness of Multigrade-Type Bitumens in Preventing Pavement Cracking and Rutting”, I. Deme, M.C. Deserres, J.R. Lenters 40 100-136 (1995).

“Using the SHRP Specification to Select Asphalt Binders For Low Temperature Service”, W.D. Robertson 40 170-195 (1995).

“Influence of Types of Asphalt Binder on the Tensile and Shear Strengths of Asphalt Mixes”, A.O. Abd El Halim, M.A.E.A. Zahw, A.E.G. Bahgat, M.K.E. Samny 40 291-304 (1995).

“Ontario Experience With Heavy Duty Binders”, K.K. Tam, A. Virani, J. Blair 40 305-334 (1995).

“The Use of Fracture Energy in Performance-Based Specifications of Asphalt Binders”, J.E. Ponniah, S.A. Hesp 41 127-144 (1996).

ASPHALT BINDERS

- “Challenges and Opportunities In The Implementation of Superpave Binder Specifications”, O. Puzic, B.U. Achia, A.G. Wong, J.D. Bell, L.E. Moran 41 179-199 (1996).

“Contractor's Workshop (Answers from 1982)”, 28 385-422 (1983).

DEVELOPMENT OF SPECIFICATIONS

Development of Specifications

“Trends in Developing Improved Specifications for Asphaltic Materials in the U.S.”, J.Y. Welborn 8 3-8 (1963).

“Grading of Asphalt Cements by Viscosity”, H.R. Hawthorne 10 5-14 (1965).

“Functional Asphalt Properties and Specifications”, J.T. Corkill, O. Kopvillem 26 24-35 (1981).

“A Rational Basis for Specifications for Paving Asphalts”, N.W. McLeod 26 288-321 (1981).

“Discussion: Dr. N. W. McLeod's Paper”, F.D. Young 26 322-345 (1981).

“Traps for Contractors in Statistical Specifications in Asphalt Technology”, R.L. Dunning 31 320-339 (1986).

“The Effect of End-Result Specifications on Bridge Deck Waterproofing in Ontario”, R.C. Evers, D.F. Lynch 34 82-11 (1989).

“Development of Standard CAN/CGSB-16.3-M Asphalt Cement for Road Purposes”, I. Deme, D.P. Palsat 34 342-381 (1989).

“PVN as a Measure of Paving Asphalt Temperature Susceptibility and its Relationship to Paving Asphalt Specifications, Mixture Design and Pavement Performance”, N.W. McLeod 34 382-452 (1989).

“Development of a Performance-Based Specification for Asphalt-Aggregate Mixtures”, G.A. Huber, T.S. Shuler 35 160-179 (1990).

“The Development, Implementation and First Year's Experience of End-Result Specification for Hot Mix in Ontario”, D.C. Pearson, D.F. Lynch 37 110-130 (1992).

“The Development of End Result Specifications For Pavement Compaction and Recovered Penetration”, V. Aurilio, C. Raymond 39 242-261 (1994).

“Committee On Road Materials' Recommended Guidelines”, J.K. Davidson, B. Morien, T. Sutandar 40 454-477 (1995).

“Committee On Road Materials' Recommended Guideline (RG-1) For Cutback Asphalts (1996)”, L.J. Miller, D.R. MacLeod 41 363-375 (1996).

“Specification Requirements and Asphalt Properties”, D. Jhanwar, L. Zanzotto, J. Berti 43 73-92 (1998).

“End Result Specifications for Hot Mix in Ontario”, Robert D. MacLean, Anil Virani, Kai K. Tam 44 1-26 (1999).

“Polymer Modified Bitumens: Proposals for Performance Specifications”, Bernard Brulé 44 241-252 (1999).

“Implementation of End Result Specifications in the Atlantic Provinces”, Peter Crowe, Terry Hughes, Sheldon Roach 45 430-456 (2000).

DEVELOPMENT OF SPECIFICATIONS

“Characterisation Tests on Bond Coats: Worldwide Study, Impact, Tests, Recommendations”, François Chaignon, Jean-Claude Roffé 46 141-151 (2001).

“The Impact of High Testing Variability on End Result Specifications”, Vince Aurilio, Paul Lum 46 281-31 (2001).

“End-Result Specification Development: The Illinois Demonstration Projects”, William G. Buttlar, Laura Shanley, Susanne Aref 46 303-331 (2001).

“Development of a Smoothness Specification for Ontario”, John A Blair, Kai K. Tam 46 333-360 (2001).

“Accounting for Bias and Between-Laboratory Differences”, Vince Aurilio, William Buttlar, Anshu Manik, Laura Shanley 47 389-404 (2002).

“Development of Pavement Performance Requirements for Design-Build-Maintain Projects in Alberta”, Chuck McMillan 51, 209-222 (2006).

“Developing a Performance – Based Specifications for Spray – Patch Crack Treatment – A Case Study in Alberta”, Dave Palsat, Darel E Mesher, Hamid R Soleymani, Paula Campbell 53, 1-20 (2008).

“Development and Implementation of Specifications Related to the Internal Angle of Gyration for the Superpave Gyrotory Compactor”, Kevin D. Hall, Stacy G. Williams 54 471-492 (2009).
