

Nathan Ruecker

Education:

2003 B.Sc., Civil Engineering, University of Saskatchewan

Work Experience:

2011 to Present – Director, Roads & Bridges, SNC-Lavalin (Regina)

2009 to 2011 – Transportation Engineer, AECOM (Regina)

2008 to 2009 – Transportation Engineer, AECOM (Vancouver)

2007 to 2008 – Civil Engineer, Paragon Engineering (Vancouver)

2006 to 2007 – Civil Engineer, Stantec Consulting Ltd. (Kelowna)

2003 to 2006 – Civil Engineer, Stantec Consulting Ltd. (Regina)

Memberships and Related Activities:

Member, of CTAA since 2017

Member, of LAC in 2018 Regina Conference

Member, of ACEC-SK Transportation Executive Committee

Member, of Saskatchewan Tri-Party Roadway Technical Group

Reasons I want to be a Director:

I have spent the majority of my career in the field of transportation working a great deal with pavement design and construction. Early in 2017, I was asked to volunteer for the Local Arrangements Committee for the 2018 conference in Regina. Unfortunately, this was the first time I had really heard about the CTAA. After attending the CTAA Annual Conference last year in Halifax, I was amazed at the collection of talented individuals in attendance from all over the world. There was an obvious passion for pavement quality and innovation in every presentation and every conversation had at this event. I share their passion and hope to share my experiences from a Saskatchewan perspective. In addition, I hope to become a better engineer by learning from others individual experiences and perspectives.

Regardless of successfully becoming a CTAA Director, I will continue to promote the CTAA in Saskatchewan as it is a great association that more scientists, engineers, technicians, academics, students, contractors, consultants and suppliers need to be a part of.
