## WHY I AM RUNNING FOR 2<sup>ND</sup> VICE PRESIDENT

Thank-you for the opportunity to serve the CTAA as Alberta Director the past four years, in which a significant amount of effort has gone into building the membership base.

As Chair of the Membership Committee, strategies were implemented to maintain and grow current the membership. Members who previously discontinued their membership have been invited back to the organization and a focus has been on increasing not only total members, but a focus on underrepresented agencies.

The opportunity to serve the membership has been an honour. The trust you have shared to represent Alberta is valued both professionally as well as personally. If chosen as 2nd VP, I commit to you the continued effort to improve our great organization.
