

Angela Court (Atlantic Director Nominee)

**Education:**

- Professional Engineer with Engineers PEI (May 2024)
- University of Prince Edward Island – Sustainable Design Engineering (2018)
- Holland College - Construction Technology and Management (2015)

**Work Experience:**

- Department of Transportation – Materials Engineer (2019- Present)
- Engineers PEI 1st Year Councilor – Present
- Instructor at Holland College – Construction Technology Program (2018-2025)
- M&M Resources - Staff Engineer working with Hot-in-Place Recycled Asphalt (2018)
- Department of Transportation – Road Inspector (2017)

**Involvement with CTAA (Membership and Related Activities):** While working for a contractor, I was sent to Regina to attend my first CTAA conference, where I also served as a consultant on a Hot-in-Place recycled asphalt paper. Following this, I began working with the Department of Transportation and had the opportunity to attend the CTAA conference in Charlottetown. Most recently, I participated in the CTAA conference in Edmonton, where I became actively involved with Women of Asphalt. I am the PEI representative for WofA as part of the Atlantic provinces twig.

**Why I Want to Serve on the CTAA Board:** CTAA is a great association that plays a vital role in supporting and connecting community transportation professionals across the country. I want to serve on the Board of Directors to contribute to its continued success while proudly representing the Atlantic provinces.

This opportunity would allow me to grow professionally, expand my network, and stay informed about the latest innovations, research, and best practices in our field. Ultimately, I want to contribute to strengthening the community transportation sector by helping connect people, ideas, and innovation.

As a committed member of the association and an advocate for diversity through my involvement with *Women of Asphalt*, I believe I can bring valuable insight and perspective to the board.
